### ODOCIL Non-Para Urinal Screens with Cleaner Block

## Keep your bathrooms clean and odor free with ODOCIL professional urinal screens

Use ODOCIL professional urinal screens to maintain cleanliness and keep drain lines open and problem-free. The screen's cleaner-block functions as its workhorse: eliminating odors, cleaning to prevent stains and putting a stop to the unsightly build-up of stubborn scaly residue. The screen is flexible for a secure fit that traps debris before it can reach the drainpipes. ODOCIL urinal screens provide reliable everyday service that assures the basic cleanliness and proper function of your bathroom or restroom facility.

- Enzymes in the cleaner block clean and deodorize
- A blue tint is produced with each flush
- The flexible-screen design traps debris

This block has been specially designed to clean and to reduce odor problems and to be environmentally friendly when compared to conventional chemical and or PDCB urinal blocks. Each biological block contains powerful biological cleaning agents. Which are proven to maintain, clean, deodorize urinals but also the traps and pipes

An easy way to cleanse and sanitize urinals

Screens contain surfactants and chelating agents to clean and deodorize for 30 days (up to 2,000 flushes). Coloring agents are released with each flush so you know that it's working. Increased ventilation reduces potential splash back and flexible screen traps more debris to prevent costly drain clogs.
